Title of the Game: Cemetery Crashers
Name of the Authors: Angelo Alvarez, Ysabella Panghulan
Description of the Game:
Cemetery Crashers is a two-player game that involves the players pushing each other off the platform. Once the opponent gets pushed off the platform, the player gets a point. Whoever reaches 5 points first, wins the game.

Instructions:
The main goal of the player is to push the opponent off of the platform. Use the arrow keys to control the player's movements. Press space to push. Note that the ability to push has a cooldown time, which means that the player can only use the push function once the cooldown time is finished. You can also push the opponent without using the push button by simply colliding with the other player. Using the push ability will just move the opponent farther. Once the opponent gets off of the platform, the player earns one point. Whoever reaches 5 points first, wins the game.
